YAUHENI BUKA

AI ENGINEER | APPLIED AI & BACKEND SYSTEMS

Warsaw, Poland | +48 571 333 394 | yauhenibuka@gmail.com

github.com/slading | yauheni-buka.vercel.app

PROFILE

AI-focused software engineer building LLM-powered applications and reliable backend systems. Integrated LLM APIs and structured outputs into a Python/FastAPI risk-analysis prototype; built a booking platform for a real two-location business. Familiar with RAG fundamentals. Work with AI coding tools while reviewing, testing and verifying implementations.

SELECTED PROJECTS

SentinelAI | Transaction Risk Analysis Prototype | GitHub

- Built a Python/FastAPI risk-analysis pipeline combining deterministic transaction signals with structured Groq LLM outputs.
- Developed an investigation interface with REST/SSE integration and audit logging; deployed frontend changes to Vercel.

N2D Nails | Two-Location Booking Platform | GitHub

- Built customer booking and staff workflows for a real two-location salon: availability, cancellations, rescheduling and scheduling views.
- Used Supabase Auth, PostgreSQL Row-Level Security and server-side RPCs to enforce booking rules and atomically revalidate capacity.
- Supported configurable hours, service durations, photo uploads and a bilingual customer interface.

AI RFQ Operations Agent | B2B Quotation Engineering Prototype | GitHub

- Developed deterministic quotation logic for product matching, tier pricing, stock, delivery schedules, discounts and totals.
- Implemented Python/Pydantic models, SQLAlchemy 2.0 persistence, Alembic migrations, audit evidence and pytest regression checks.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, HTML, CSS

AI: LLM API integration, structured outputs, RAG fundamentals, AI coding agents

Backend & data: FastAPI, Node.js, Pydantic, SQLAlchemy, Alembic, PostgreSQL, SQLite, Supabase, REST APIs

Engineering & tools: pytest, Ruff, integration/regression testing, Git/GitHub, Docker, Vercel, Astro

EDUCATION

CKU #1, Warsaw | General secondary education for adults | Expected 2027

LANGUAGES

English - Fluent | Polish - B2 | Russian - Native
